The cuisine of southern Italy is often guests think when they imagine Italian flavors - pasta with s sauces, olives and olive oil, zucchini, veal and fish are listed on the diet throughout the region. Roman food is typically freshly prepared and varies depending on the season. Must try bites include cacio e pepe (a simple dish of pasta, cheese and pepper) and supplì (fried rice ball similar to Sicilian arancini). For a more delicious meal, try the local trattorias, a small restaurant from the main squares. Typical Italian food includes wines and occasional beer, followed by a few tinges of drinks after dinner, such as grappa or limoncello. Greece's warm climate ensures a steady supply of fresh, high-quality fruits and vegetables. Salads served with aromatic olive oil, feta cheese and oregano are plentiful. Simple grilled fish and meat are an integral part of Greek cuisine, as well as octopus and octopus. Don't miss the spinach and cheese cakes called spanakopita. Electricity &amp; Air Conditioning Italy operates on the European standard of 220-240 volts and uses type C, F or L plugs with two or three small round pins. Greece is working on a European standard of 220-240 volts and uses type C, E or F stoppers with two small round pins. We recommend that you pack a universal adapter as well as a voltage converter if you plan to use your own hair dryer or other device without a built-in converter. The power of air conditioning in European hotels is often not as strong or as cold as what you might be used to in the US or Canada. If air conditioning is available, it is usually regulated seasonally and managed centrally by the hotel. Your hotels can provide hair dryers, irons and other small appliances. However, this equipment cannot be guaranteed. Wi-Fi is available in most hotels, although some charges may apply. There is no Wi-Fi on any of the coaches. Contact your mobile service provider for information on roaming charges. Italy is an hour ahead of Greenwich Mean Time (GMT) and six hours before Eastern Time (ET). Greece is two hours ahead of GMT and seven hours ahead of ET. When it's noon in New York, it's 6pm in Italy and 7pm in Greece. You will use the euro on tour. Better exchange rates are usually available abroad, although it is worth ordering some currency from your local bank to use on your first arrival. We strongly recommend that you take debit/bank cards and credit cards that can be used to withdraw cash at local banks as needed. Most debit/credit cards can be used at ATMs on international Cirrus and Plus networks, but be sure to check with your home bank about withdrawal fees. Inform your bank and credit card company about your travel plans so as not to confuse your international purchases with fraudulent fees. International banks and businesses mainly accept debit and credit cards that work with the EMV chip system. If you do not already have at least one debit or credit card with a chip, we strongly recommend that you request one from your bank inspection. Finally, in conclusion, tour, it is customary to offer your tour director and driver a tip in local currency. Please keep in mind the current exchange rates. We recommend tipping the equivalent of \$7USD to \$10USD per person per day for your tour director and the equivalent of \$3USD per person per day for your driver. If possible, we also recommend the equivalent of \$2USD per local guide. Tips can only be paid in cash. Buying tours on tour Most optional trips will be available to buy while you are on tour. Your tour manager accepts as payment for trips only in cash (USD only). Visa or MasterCard.
